## COMMUNITY DEVELOPMENT CORPORATION

The Riverview-Kansas Neighborhood Association was established in 1993. Arising from strong community and business support, the association decided to formulate itself into a non-profit organization under the leadership of Mrs. Pearl Hoover in 1996. The mission of Riverview-Kansas Community Development Corporation is to improve the quality of life for neighbors, by creating an economically viable community in which neighbors can become better educated, feel safe, and are involved in reestablishing a sense of neighborhood pride.

## RIVERVIEW-KANSAS

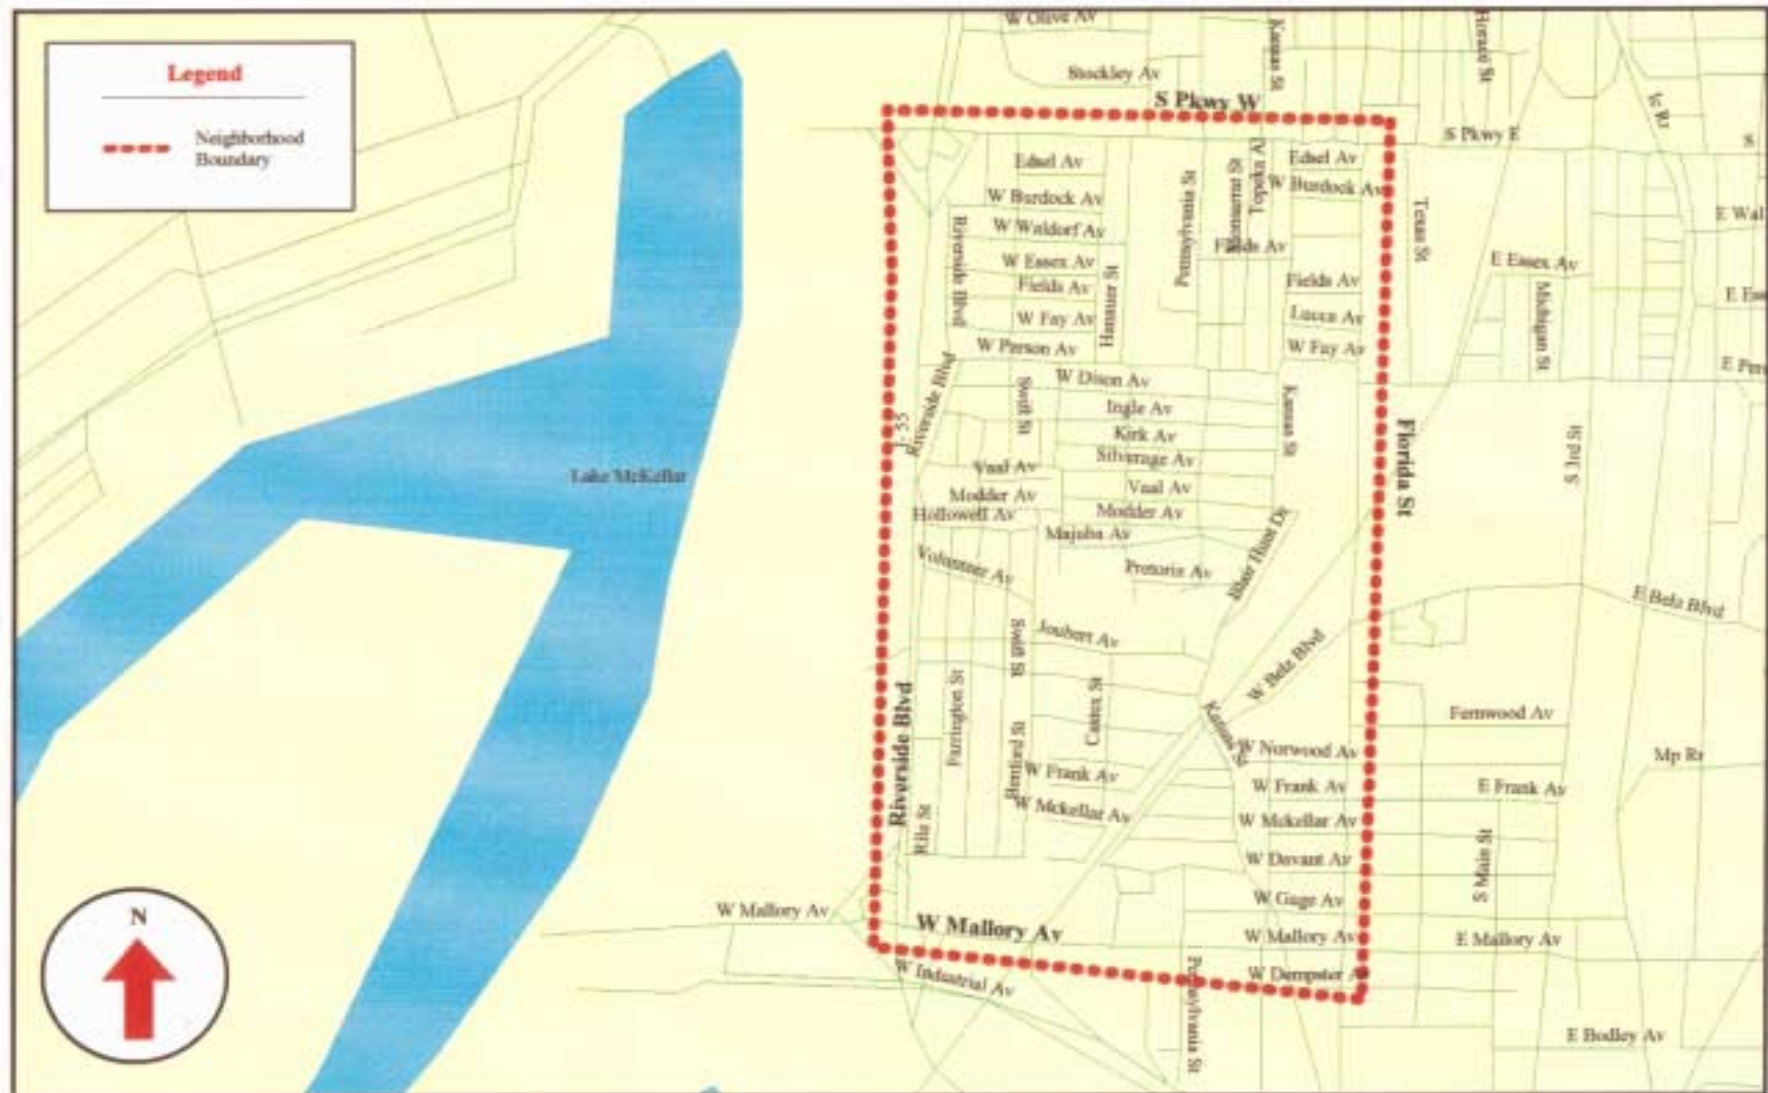

### COMMUNITY DEVELOPMENT CORPORATION

In October 2001, the City of Memphis awarded Riverview-Kansas Community Development Corporation the Community Housing Development Organization (CHDO) designation and awarded capacity building funds. This designation by the City of Memphis was in answer to the community outcries of revitalization for the area, from the slum and blight it had deteriorated to.

The capacity funds will assist in hiring staff for the CDC and provide training in the area of housing development, board development and financial management. We look forward to providing affordable housing, community service projects, safety, crime Prevention, and business & economic development opportunities to our community.
